

REQUIRED TEXTBOOKS AND RECOMMENDED READING

Effective for Classes beginning January 2020

The following books are required to complete the ATM Midwifery Training Program. The correct version of each book must be used; this may or may not be the most current edition. *Use the edition specified on this list unless otherwise noted in your module required textbook list, received at the beginning of each new module.*

Required texts are grouped by the module when you will first need the text. *Most textbooks will be used in multiple modules; however, they are not listed here more than once.*

Students are not required to purchase any textbook from a publisher, but to prevent a costly mistake by inadvertently obtaining the wrong text or wrong edition we suggest ordering directly from the publisher. By following any provided links, you can be assured of obtaining the correct textbook version and edition. Note that you do not need any supplemental materials which may be offered or bundled with some textbooks. Ordering used textbooks is not recommended since students frequently receive an incorrect or older edition. If you have any questions about correct versions/editions, contact the Course Coordinator.

Textbooks published by Elsevier are eligible for a 25% discount and free shipping when ordered directly from the publisher. To receive the discount, use the following link and discount code “**70548**”. The discount code may be used on any books ordered. Links in the textbook list are for each specific text.

<https://evolve.elsevier.com/cs/store?role=student>

Textbooks published by Lippincott, Williams & Wilkins (LWW) are eligible for a 20% discount. To obtain the discount use the following link and discount code “**WZT64HFD**”. The discount code may be used on any books ordered.

<https://shop.lww.com/>

Textbooks (other than Pharmacology for Women’s Health) published by Jones and Bartlett Learning are eligible for a 33% discount and free shipping when purchased from the publisher’s website. This includes Varney’s Midwifery!
